

**CALIFORNIA LAND SURVEYORS' ASSOCIATION**  
**SAN FRANCISCO CHAPTER**  
**December 2024**

**Join US!**

**End of the year membership renewal.**

**Make sure that your CLSA state membership is updated.** [Membership](#)

While you are at it. Please renew your membership with your local chapter, SF-CLSA, the small, but mighty!

This year we coordinated several five-chapter meetings. Jerry Mahun taught a class on error theory and even provided homework! Joe Padilla, incoming CLSA President, dropped in to visit the Bay Area chapters for a Q and A.

SF-CLSA wrote a guide for mylar submittals to CCSF, See here: [FINAL](#).

We delivered papers such as the Tentative Map Guide: [final draft Tentative Map](#)

Zach Robinson previewed his Master's paper

We also made a scholarship available in memory of Leemoi Bekey.

***We have much to be proud of.***

I taught a class on Tentative Map Processing at SLO, thanks to Daniel Namyst. The emphasis on how to review a proposed development from **both** the perspective of the developer and the governing agency. Time permitting, I hope to take this show on the road to a few more schools.

If you are interested in talking to students about anything of the surveying profession...please call or e mail.

**WE ALL MUST BE INVOLVED** in bringing real world experience to students. Where will the next gen of professional land surveyors come from? What are their expectations? **If YOU don't help, who will?**

SF-CLSA Membership starts at \$20 per person, or \$40 for a business.

Our preferred method of membership is Zelle. We also have Venmo...or even an old-fashioned check or cash!

E mail me and I can come by your shop, we'll catch up while you renew.

As of 11/22, our bank balance is \$3751.

Our plan for 2025 is for two scholarships for SF based survey students.

Our Colleagues: **East Bay meeting** [Chapter Meeting: East Bay](#)

Lastly, with the recent election, some of us may be uncertain about the future. Depending on your perspective, there may be some very real anxiety about what is ahead for our country. The many conflicts that affect so many people throughout the world is also very real, we all hope for a peaceful resolution so that families may return to rebuild their homes, community and country.

***We also hope that kindness and respect will prevail throughout this country.***

We wish you all a season of peace and joy. Take care of yourselves, your family and your community. San Francisco is, indeed, a special place, and that is why we call it our home.

**CALIFORNIA LAND SURVEYORS' ASSOCIATION**
