This looks well maintained and effective. Please take a moment to review, *does our chapter want to contribute to this fund?* If yes, how much?

Professional Practices Committee:

Last month we began a conversation about the local professional practices committee.

The conversation proposed a discussion about sections of the B&P code sections that affect all of us as well as the formation of a peer review group for review of matters facing the SF professional survey community. Dallas and Ric of the Board indicated that they would be available for a scheduled meeting to discuss questions submitted by the chapter. *What questions do you have for the survey community? Bring your experiences and suggestions: This will be an on-going topic for our chapter members.*

Meeting Schedule for 2025: Zoom-Room Meetings April 15, May 20. June 17 In Person before July-August break.
