Assembly Bill 1561
Thanks to Leica for sponsoring the Chapter website with \$200/yr
Conference at end of the month-virtual multi-state

President’s Report: Every member is encouraged to recruit 2 new members this year. We encourage you to participate at the state and chapter level.

Treasurer’s Report: 2020 tax form completed.

Director’s Report: CLSA President Mentoring Mondays event coming for networking with state members.

Monument Preservation:

- Maps at the City are scanned before recording, sometimes these copies are clearer, and they can be requested.

SF Surveying & Mapping Committee: Feedback requested from James Ryan at the City regarding our draft report.

- Meet with City to discuss feedback on the report
- Revise and update 2016 minimum standards and potentially create a document jointly endorsed by BSM and the committee

From Adrian: No county coordinate system or control/benchmark system for the County of San Mateo. County only really handles subdivisions in unincorporated areas. Cities review subdivision maps and lot line adjustments, etc. for their cities. Only Records of Survey and Corner Records are reviewed by the county for all municipalities.

Old Business: Letter of introduction to Suzanne Suskind, who has since left the position. At the last meeting we decided to send the letter to the head of DPW. We received a quick response.

Topics of discussion:

- Procurement of surveying services on public works projects. Should or may procurement of surveying services be done by the general contractor? How does this relate to Qualifications-Based-Selection requirements?
 - Motion carried to gather as much info as we can and discuss in detail at the next meeting.
- Un-recorded maps and historic records. Ideas and discussion.
- Future of surveying profession. Challenges, goals and ideas.

Adjourned: 1:17 PM

Prepared by: Jared Serpico, Secretary
